Letter from the President

For almost two decades, we at Stanbridge College have been working to provide quality education that bridges the gap between where people are and where they dream to be. As we rise to meet new challenges, we are reminded that it is our student body, beautifully diverse and unflinchingly bold, that makes our institution strong. Their stories, strengths and tenacity breathe life into our philosophy: that every person has the potential to soar, and when given the right tools, can learn to believe not only in themselves, but in others. This personal metamorphosis is what changes the world for the better, and we as educators are thrilled and honored to be a part of it.

Yasith Weerasuryia | President & CEO
We believe that the best healthcare goes far beyond the technology and charts - it focuses on every patient’s fundamental need for compassion and respect while receiving quality treatment. Stanbridge holds to this value in every facet of our nursing programs by combining service learning projects with hands-on training in advanced skills and simulation labs. As a result, students learn to think critically and respond intuitively in a real clinical environment while developing a perspective we believe essential to nursing: that a patient’s recovery depends on compassion and genuine human connection. We strive to graduate nursing students with this double-edge so they not only survive in the fast-paced world of nursing, but thrive and lead others in bettering the world of healthcare.
Student Practicing IV Procedures in Nursing Simulation Lab
As the healthcare world raises its standards, we at Stanbridge continue to advance our facility, install the latest learning technology in our classrooms and hire the very best nurse educators to ensure our graduates are prepared to meet the new demands of the nursing industry. Beyond in-depth training, students are encouraged to engage their community through service learning initiatives. Providing the local community with healthcare services brings concepts learned in class to life in real healthcare environments.

This holistic, hands-on approach to skill mastery gives students a chance to build confidence as they work through the program and become increasingly connected to their future role as a nurse. We constantly partner with outstanding clinical facilities to foster a strong clinical learning environment for our students. With a 92% six year average pass rate, Stanbridge College is passionate about readying nursing students for excellence in their field. By striving to graduate excellent nurses, we enrich the quality of care for those who need it most while allowing people to achieve their professional and personal goals.

Program Highlights

• Earn your diploma in as little as 13 months\(^1\)

• Full-time and part-time schedules available

• 92% six year average NCLEX pass rate\(^2\)

• Financial Aid available to those who qualify

• Accredited college, BVNPT

• Accredited college, ACCSC

RN TO BSN - Degree Completion

Our RN to Bachelor of Science in Nursing (BSN) degree completion program delivers a rich set of courses designed to give nursing professionals a focused edge in high-demand areas of modern healthcare, putting opportunities for upward mobility in their reach. Because healthcare professionals can’t put their life on hold to earn a degree, we’ve made the program fully accessible online, via our exclusive online learning platform Edverum™. With an intuitive learning environment and a program that fits naturally into a busy schedule, we’ve made earning a competitive Bachelor’s Degree more possible than ever.

Program Highlights

• Online program with 2 day residency requirements for the Advanced Physical Assessment course
• Degree completion in 21 months¹
• Financial Aid available to those who qualify
• Accredited college, ACCSC

MASTER OF SCIENCE IN NURSING

The Master of Science in Nursing (MSN) program builds on concepts mastered in BSN programs, affording nursing professionals a substantial boost in their career potential. Preparing nurses for positions in health policy and leadership, the program refines the experience of a seasoned nurse into skills required for top-level healthcare careers. With 100% online availability on an intuitive learning system, the MSN is a perfect fit for ambitious nurses looking to further their education and enhance their career.

Program Highlights

• 100% online program on the exclusive learning platform Edverum™
• Earn your MSN Degree in 19 months¹
• Financial Aid available to those who qualify
• Accredited college, ACCSC

Information Technology

Keeping Students Ahead of the Curve

In a world where Information Technology continuously expands in every direction, successful businesses and institutions consistently reveal a common denominator: adaptive, well-trained IT professionals on staff. At Stanbridge we share the world’s passion for harnessing technology to improve lives, and strive to keep our programs at the forward edge of industry-responsive IT training so our graduates can contribute to that vision.

To help our IT students become the best in their field, our curriculum is designed to prepare students for a wide range of IT certifications while working toward a competitive degree.

DIPLOMA IN MOBILE APPLICATION DEVELOPMENT

We know Android and Apple iOS aren’t friends, but with the knowledge of both, you can be a huge asset to an employer. In the Diploma in Mobile Application Technology online program at Stanbridge College you’ll learn to turn inspiration into engaging mobile applications that change people’s lives through engaging, industry-relevant courses. Connect with industry professionals, get hands on experience in engaging classes, and prepare for a rewarding career. So don’t just follow where the app industry is going – lead the way.

Program Highlights

• Master Android and Apple iOS app development
• Build a solid foundation in Java and Objective C
• Optimize apps to sell on Google Play and iTunes
• Conceptualize app framework to apply to smartphones, tablets, and the Web
• Manage app development from start to finish

DIPLOMA AND ASSOCIATE OF SCIENCE IN IT

The Diploma in Information Technology program provides the foundation upon which higher degrees and a successful IT career is built. With a mastery of LAN/WAN networking in our diploma program, students can confidently transition into the Associate of Science in Information Technology program, where core LAN/WAN concepts are built upon with courses in Security, Wireless Networking and Project Management. We’ve designed the program to start with the basics and flow cohesively and cumulatively into more advanced topics. This allows students at any level to develop a comprehensive understanding of skills fundamental to their success in the IT industry.

Program Highlights

• Earn your Diploma in IT in as little as 11 months¹

• Train for industry certifications

• Earn your Associate’s Degree in 22 months¹

• Financial Aid available to those who qualify

• Accredited college, ACCSC

Certifications trained for: Cisco Certified Network Associate (CCNA), CCNA Security, CompTIA Security+, MCSE Windows Server 2012, MCITP Enterprise Administrator

\(^1\) Courses and certifications subject to change.
\(^2\) Courses effective September 1, 2013
Our Bachelor of Science in Information Technology (BSIT) program is designed to supplement the foundation laid in our Diploma and Associate’s Degree programs, which explore LAN/WAN technologies, wireless and security technologies in detail. The BSIT core classes have an emphasis on advanced WAN technologies, virtualization, ethical hacking and forensics. These areas of higher expertise allow ambitious IT professionals to augment their expertise and earn a degree that will enhance their professional viability.

Program Highlights

- Earn you Bachelor’s Degree in 44 months¹
- Train for industry certifications from Cisco, Microsoft, VMware, etc.
- Evening classes allow you to work and earn your degree
- Financial Aid available to those who qualify
- Accredited college, ACCSC

¹ Program duration subject to change.
Whether it’s helping a victim of an accident learn to adjust to new circumstances or a star athlete get back in the game, therapy is about helping others overcome physical and mental limitations. It is being the source of someone’s drive to heal - to overcome life’s obstacles and live it to the fullest. We hold to the belief that excellent training throughout our Allied Health and Therapy programs will result in a better life for our graduates, and equally important, those they impact throughout their career. With advanced skills and simulation labs, a passionate faculty, and students who love what they do and where they’re going, we are able to accomplish a reflexive goal: to improve the lives of others, wherever life may find them.
The Occupational Therapy Assistant (OTA) program teaches students to help those with physical limitations maximize their independence and live full, meaningful lives. Students of the program are given the opportunity to master skills in environment adaptation and therapeutic treatment in advanced skills labs outfitted with the industry’s latest technology and equipment. We believe a learning environment that mirrors those of actual career scenarios will foster excitement and confidence in our students, so we continually expand and enrich our facility to this end. Ultimately, we believe in our OTA students - in their ambition and in their goals - because we share a belief that there is no greater reward than helping others live a better life.

**Program Highlights**

- Earn your degree in as little as 21 months\(^1\)
- 100% NBCOT pass rate in 2013 – Highest in California\(^2\)
- Hands-on learning in three Therapy Skills Labs
- Financial Aid available to those who qualify
- Accredited program, ACOTE
- Accredited college, ACCSC

---

1 Program duration subject to change.
OTA Director Satch Purcell with a Student in Therapy Lab 3
Stanbridge College is committed to students who have a passion to help those in need; a commitment realized in the Master of Science in Occupational Therapy (MSOT) program. Students learn to help clients at any stage of life, improve their everyday activities and accomplish what they love to do most. As an entry-level program, the MSOT instills a solid education through evidence-based clinical reasoning, interdisciplinary academic opportunities, and first-hand experiences in innovative and emerging rehabilitation technology. Under the guidance of expert faculty, our students learn and practice in professional settings, giving them the confidence to work and grow in a dynamic profession. Four advanced, on-campus Therapy Labs place students in sophisticated home, work, and school simulations and give them the high-tech tools and out-of-the-box, creative thinking they need to help clients learn to succeed at any task. With a strong focus on communication skills, civic engagement, and early career development, our graduates become in-demand professionals ready to make a real difference in a rewarding occupational therapy career.

Program Highlights

• Earn your degree in as little as 24 months¹

• Multi-term NBCOT licensure exam preparation

• Eight world-class labs

• Development of clinical reasoning through simulation

• Financial Aid available to those who qualify

• Accredited college, ACCSC

Accreditation

The Master of Science in Occupational Therapy program has applied for accreditation, and received “Candidacy Status,” by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 4720 Montgomery Lane, P.O. Box 31220, Bethesda, MD 20824-1220. ACOTE’s telephone number c/o AOTA is (301) 652-AOTA. Their website is www.aota.org. The program has submitted an Application for Candidacy, which is the formal application required in the pre-accreditation stage. Candidacy Status is not an accreditation status nor does it assure eventual accreditation.

¹ Program duration subject to change.
PHYSICAL THERAPIST ASSISTANT, ASSOCIATE OF SCIENCE DEGREE

We believe that freedom from pain and recovery from injury are invaluable to those who’ve sustained injury or disability. Whether it’s helping stroke victims walk again or getting star athletes back on the field, our Physical Therapist Assistant (PTA) program focuses on transforming injury and limitation into maximum physical potential. The three Therapy Skills Labs, outfitted with the best machines and technology, are equipped to provide students a holistic, hands-on approach to their learning. For those with a passion for understanding rehabilitation of the body and restoration of physical confidence, our PTA program will channel this energy into skills that prepare you for a rewarding career.

Program Highlights

• Earn your degree in 18.5 months¹
• NPTE for PTA licensure exam preparation
• Access to three Therapy Skills Labs
• Financial Aid available to those who qualify
• Accredited college, ACCSC

1 Program duration subject to change.

Effective August 6, 2012, Stanbridge College has been granted Candidate for Accreditation status by the Commission on Accreditation in Physical Therapy Education (1111 North Fairfax Street, Alexandria, VA, 22314; phone: 703-706-3245; email: accreditation@apta.org). Candidate for Accreditation is a pre-accreditation status of affiliation with the Commission on Accreditation in Physical Therapy Education that indicates that the program may matriculate students in technical/professional courses and that the program is progressing toward accreditation. Candidate for Accreditation is not an accreditation status nor does it assure eventual accreditation.
“Oliver” - Stanbridge College Mascot
The Stanbridge College mascot is the owl. Throughout history the owl has been a symbol of wisdom and prudence because it has an uncanny ability to see, hear and understand. Owls also have represented prosperity, illustrating how wisdom provides great rewards. As you move forward on your educational path and on to your future goals, remember the owl. Take time to observe the people and environment around you. Open your eyes to new possibilities and viewpoints. Use your knowledge to help your fellow human beings. By embracing these values you will achieve success.
PTA Students Practicing Rehabilitative Exercises in Therapy Lab 2
Therapy Skills Lab 1
HEMODIALYSIS TECHNICIAN DIPLOMA

With the frequency of patients diagnosed with end-stage renal disease, the demand for skilled Hemodialysis Technicians continues to rise. Students of our Hemodialysis Technician (HDT) program not only learn to provide life saving treatment to those with kidney complications, but to see patients as people who equally benefit from genuine personal connection. This approach to Hemodialysis training gives our graduates a firm grasp on the technical skills required to succeed in a career while maintaining sensitivity to each patient’s fundamental need for comfort, connection, and compassion.

To ensure our students get the best training for a career, we’ve built an HDT Skills Lab that replicates a real dialysis clinic, with the latest Fresenius 2008K Dialysis Machines and Cannulation arms. With a passionate faculty and these tools at our students’ disposal, each student graduates knowing their training will take them where they want to go both personally and professionally.

Program Highlights

• Earn your diploma in as little as 7 months
• Evening classes available for working professionals
• Financial Aid available to those who qualify
• Approved program, CDPH
• Accredited college, ACCSC

1 Program duration subject to change.
Students Working Together in Dialysis Skills Lab
VETERINARY TECHNOLOGY, ASSOCIATE OF SCIENCE DEGREE

The bond between people and their pets has never been stronger. Animals of all sizes have increasingly become an important part of the family and their owners want the best when it comes to their health and well-being. At Stanbridge, we feel that compassion for those in need doesn’t stop with our fellow man. We advocate for the humane treatment of all living creatures in need and strive to instill this in each one of our Veterinary Technician students.

With an acute awareness of the growing advancements in veterinary medicine, we ensure our Veterinary Technician students are immersed in quality instruction and thorough, hands-on training with live animals, to support the diverse skill sets needed for their future profession. We feel a positive, communicative, and detail-oriented mind set will prepare students to advocate for their patients and counsel their owners. Students bring classroom concepts to life in our Veterinary Technology Skills Lab and while they learn with licensed veterinarians and veterinarian technicians in real animal shelters. Our goal is to graduate animal care providers of the future, whose genuine compassion is matched by their skill, critical thinking, and determination to improve the lives of those around them.

Program Highlights

- Earn your degree in as little as 21 months\(^1\)
- Hands-on learning in the Veterinary Technician Skills Lab
- Clinical instruction and training with live animals
- Financial Aid available to those who qualify
- ACCSC accredited college

The Associate of Science in Veterinary Technology degree has been approved by the Accrediting Commission of Career Schools and Colleges, ACCSC. Stanbridge College is seeking accreditation for the Associate of Science in Veterinary Technology degree by the American Veterinary Medical Association (AVMA) Committee on Veterinary Technician Education and Activities (CVTEA) (1931 North Meacham Road, Suite 100 Schaumburg, IL 60173-4360; phone; 800.248.2862; www.avma.org). The program has submitted an Application for Initial Accreditation. Submission of this document does not assure that the program will be granted Accreditation.

\(^1\) Program duration subject to change.
The Veterinary Technician National Examination (VTNE) is one of the final milestones required for all veterinary technician students to pass in order to become a Registered Veterinary Technician in the United States. Created by the American Association of Veterinary State Boards, the VTNE is focused on testing the student’s skills and knowledge of animal care and their ability to make decisions in various scenarios under critical conditions. The VTNE test requires that students understand the basic principles of veterinary care and apply this to different elements of animal safety management.

Veterinary Technology Courses

With a solid scientific foundation, the Associate of Science in Veterinary Technology degree program prepares students to be advocates for their patients. Courses including Anatomy and Physiology of Animals, Veterinary Microbiology, Parasitology and Pharmacology immerse students in the mechanics of animal biology. Diagnostic Imaging, Veterinary Anesthesia and Analgesia, and Surgical Nursing and Dentistry give them everyday tools for care. Learning how to care for small, large, and exotic animals ensures students are prepared for every type of paw, hoof, or wing they encounter.

Veterinary Technology students are also given consistent, hands-on training in Veterinary Clinical Procedures. Working with live animals both in the Veterinary Technology Skills Lab and off-site at partner hospitals and rescues puts theory to practice and allows students to learn how real animals communicate their needs. With comprehensive review at the end of each term, students are prepared for their career, the demands of a dynamic industry, and more importantly, the chance to make a difference for their community.

Accreditation

The Associate of Science in Veterinary Technology degree has been approved by the Accrediting Commission of Career Schools and Colleges, ACCSC. Stanbridge College is seeking accreditation for the Associate of Science in Veterinary Technology degree by the American Veterinary Medical Association (AVMA) Committee on Veterinary Technician Education and Activities (CVTEA) (1931 North Meacham Road, Suite 100 Schaumburg, IL 60173-4360; phone; 800.248.2862; www.avma.org). The program has submitted an Application for Initial Accreditation. Submission of this document does not assure that the program will be granted Accreditation.

Awards & Recognitions

Committed to Service, Excellence, and Integrity

There is no substitute for excellence, and Stanbridge strives to set the example not only for students but the community as a whole. Whether we are partnering with a local non-profit organization to help build a house for the needy or striving to make our programs the best, we believe in doing everything to the best of our ability. Why? Because if we are to expect dedication, integrity, and compassion from our student body, we must first show those qualities in ourselves and lead by example. We are pleased to be recognized for providing quality in education and making a positive contribution to our local and global community.

President’s Higher Education Community Service Honor Roll

The award is the highest federal recognition a college or university can receive for our commitment to volunteering, service learning, and civic engagement.

Institutional Research & Evaluation Inc.
America’s Best Technical Colleges

For our extremely low student loan default rates, overall value, offering exceptional educational opportunities to the community.

ACCSC Community Service Award Winner\(^3\)
2013
For outstanding community service outreach to our local and global community, by ACCSC.

WMA’s Outstanding Website\(^4\)
2013
For outstanding achievement in web development in the category of education. The award is given to Stanbridge College’s Edverum™, an exclusive online learning platform that redefines the virtual classroom.

ACCSC School of Excellence Award\(^5\)
2008 - 2009
For our commitment to meeting the expectations and rigors of accreditation by ACCSC, as well as a delivering quality educational programs for students, graduates and employers.

Financial Aid

Making College More Affordable

Furthering your education is both a commitment and an investment that will have lifelong returns. A diploma or degree will open doors to greater career opportunities and increase your earning potential. We understand that funding this investment can be overwhelming, which is why Stanbridge College has a Financial Aid team that will walk you through your options and help you decide on the best financial aid package.

Our Financial Aid team is there to support you as you fill out your Free Application for Federal Student Aid (FAFSA) and plan your financial aid package. Stanbridge College has the following Financial Aid programs available to those who qualify.

Federal Pell Grant
The Federal Pell Grant program provides a foundation of financial aid to which additional aid programs may be added. Unlike a loan, Federal Pell Grants do not need to be repaid.

Federal Direct Loans
Federal Direct Loans are low-interest loans available to students enrolled at least half-time. This type of funding must be repaid. The student however does not begin repayment until six months after leaving school.

Federal Direct Parent (PLUS) Loans
PLUS loans enable parents to borrow funding to assist in paying the educational expenses for a dependent student enrolled at least half-time. Within sixty days of the final disbursement of funding parents must begin repayment of these loans.

Sallie Mae Loans
Smart Option student loans are an ideal solution for students who still need funds after they have maximized grants, scholarships, and federal loans.

Cal Grants
Cal Grants are awarded by the California Student Aid Commission (CSAC). Cal Grant A, B and C are awarded based on enrollment status and GPA during the award year. Students must be eligible based on their established income, assets and the results of a current FAFSA. Grants are awarded from the State of California and do not have to be repaid.
Stanbridge College is committed to your success in the classroom, on campus, and in the community. Our Student Services department is always ready to assist with your academic advising, tutoring, and general guidance. Stanbridge students also receive a wide variety of on-campus and online resources to help them through exam preparation and coursework. This not only helps students feel comfortable with their new environment, but also prepares them to excel in all aspects of their education.

**Student Services Resources**

**New Student Orientation**
From day one of your education at Stanbridge College we support you in every way possible. During your orientation session we walk you through every facet of our academic community. We review your program, schedule and all of the facilities and resources available to you both on-campus and online. We also introduce you to the Student Central online portal where you can review your schedule, courses, grades, transcripts, and other information.

**Academic Advising**
Request one-on-one advising with a Faculty Advisor or Student Services officer to discuss academic or personal issues at any time.

**Learning Resource System**
To better serve our students, we developed a comprehensive Learning Resource System that is uniquely effective. It includes the Learning Resource Center, Reading Center, Online Library, and Online Learner. You can use these resources for your coursework, research, study, and exam preparation.

**Tutoring Services**
Our programs are rigorous and designed to challenge our students. Occasionally, students may need additional help outside of the classroom. Students can receive individual tutoring by their instructors during office hours or other scheduled times.

Please speak to your Student Services Officer for further assistance.
THRIVING TODAY, PREPARED FOR TOMORROW.
Student Assistance Program

Confidential Help When You Need it Most

Stanbridge College recognizes that balancing academic excellence and a complicated life outside of school can be stressful, and at times, overwhelming. Because nobody should deal with personal crisis without a listening ear or guidance toward a resolution, we have contracted with The Holman Group to bring students the Student Assistance Program. The Student Assistance Program - a free, comprehensive and fully confidential counseling service that helps students manage or resolve a wide variety of difficult situations - is part of Stanbridge College’s commitment to a student’s well-being as a person along with academic success.

Students are provided free counseling sessions for assistance with:

- Stress & Anxiety
- Depression & Suicide
- Family Conflict
- Fitting In
- Alcohol & Drug Abuse
- Fear of Failure
- Community Referrals
- Day Care Issues
- Healthcare Issues
- Identity Theft
- Financial Issues
- Legal Issues

Prescription Drug Discount Program

With the soaring costs of prescription medications, health problems can be debilitating both physically and financially. As part of the Student Assistance Program, the prescription drug discount card serves to lessen the financial burden of paying for necessary medications while you focus on keeping a student’s academic and personal life in balance. The program offers discounts of up to 50% for prescription drugs with an average savings of over 20%.
Additional Services

Identity Theft Recovery
In the case that a student’s identity is stolen, they can contact the crisis number and a Fraud Resolution Specialist, who will work with them to restore their name and good credit, manage debts incurred after the theft, and follow up to ensure their identity is recovered and the case resolved.

Financial Consultation
Financial issues and decisions can cause undue stress and anxiety if they are not handled with care. The program therefore provides students with consultation in:

- Paying for College
- Complex Tax Issues
- Managing Debt and Bad Credit
- Financial Problems
- Investment Guidance
- Retirement Planning

Legal Services
Each student is entitled to one (1) initial thirty-minute telephonic or face-to-face consultation per separate legal matter at no cost with a network attorney. Many legal matters are eligible for these services, including:

- Civil Issues
- Real Estate
- IRS Matters
- Estate Planning Law
- Bankruptcy
- Immigration and Naturalization
- Document Preparation
- Mediation Services
Career Services

Helping Students Transition to a Career

Stanbridge College takes a personal interest in mentoring and encouraging our graduates to meet their career goals. Our Career Services department is committed to the success of our students as working professionals and offers a comprehensive, multi-step, career placement process.

Résumé and Portfolio Preparation
Career Services helps guide our job-ready applicants in writing a powerful and creative resume that helps them stand out from the competition.

Mock Interview Sessions
Our Career Services department takes graduates through personality mapping, salary negotiations, role-playing and other specialized interview techniques that will help them to take control of their job interview.

Job Leads
Graduates receive access to continually updated job listings and career opportunities obtained from a variety of sources, including recruiting organizations and Southern California companies with whom we have built relationships. The leads are posted exclusively on Stanbridge College's Placement Online website.

Career Fairs
Stanbridge College offers on-campus career fairs allowing students and alumni to network with leading employers in the allied health and information technology industries. Students are able to meet potential employers, explore new career opportunities and gather advice on what employers are looking for in future employees.

Alumni Association
The Alumni Association provides alumni with continued access to the college’s resources, news and special events while facilitating a dynamic network. Graduates are encouraged to become members of the Alumni Association. Members receive benefits, including extended career services, access to exclusive alumni workshops, social media networking and invitations to complementary professional networking events. Our mission is to foster a lifelong, mutually beneficial relationship between alumni, current students, and Stanbridge College.
A Service Learning and Civic Engagement Initiative

Engaging the local and global community is an integral part of our identity: Keeping the needs of others in focus helps shape a connected, compassionate student body and elevates our students to a higher standard of service. Through a variety of partnering organizations and events, Stanbridge REACH - Beyond the Classroom™ goes into our community to volunteer time, raise funds, promote awareness, and ultimately, meet the needs of people around the world.
Serving Healthcare
With a robust and growing nursing program, our students are eager to apply their knowledge in real-time and make a contribution to the community as developing medical professionals. Whether it’s providing immunizations at flu clinics, donating blood to the American Red Cross or training to be medical reserve nurses, Stanbridge students display teamwork and incredible passion for serving the healthcare community.

Helping the Homeless
In a community of plenty there are many without shelter or food, and rather than look the other way, we’ve chosen to fight the local poverty epidemic - one meal, blanket and suitcase at a time. Donation drives provide the hungry with food and other supplies. Community build days help maintain shelters that keep those without a home out of the cold. Serving food at soup kitchens allows students and staff of Stanbridge to offer the warmth of a meal and a much-needed human connection. These events have become an extension of our purpose here at Stanbridge, where learning and a concern for others are fostered together.

Caring for Active Military and Veterans
We believe that there is no greater service than putting your life in harm’s way to protect our Nation’s liberty - a liberty that makes our vision for education and investing in our future possible. To support the troops and aid in our national cause, Stanbridge holds donation drives for military families and assembles care packages for those fighting oversees. Our responsibility, however, is not limited to those on active duty: Stanbridge holds school-wide fundraisers for veterans, who after their service have fallen on difficult times. We believe it a small gesture in light of what these men and women have given up, but in many cases, a little hope means everything.

Providing Aid to the Global Community
While heavily invested in serving our local community, Stanbridge finds a myriad of opportunities to contribute to people in need around the globe. Our partnership with Doctors Without Borders - Médecins Sans Frontières (MSF) makes possible the medical treatment of critically impoverished people living in abject conditions all over the world. Our work with Shelter Box aids in providing relief for those devastated by natural disaster - as in the 2011 tsunami in Japan. In all of it, our students develop what we consider one of the most important facets of success: compassion. By involving themselves in the crucial reality of human need, students learn to see beyond themselves, discover and meet the needs of others, and graduate with a genuine sense of duty to humankind, whatever their profession.
Stanbridge Student Serving the Homeless in Costa Mesa
Accreditations and Approval to Operate

Stanbridge College is a private Institution and has been approved to operate by the Bureau for Private Postsecondary Education. Stanbridge College is granted approval to operate under the terms of California Education Code (CEC) section 94890(a) (1) until April 1, 2014 per CEC section 94890(. For more information, contact the Bureau for Private Postsecondary Education at 2535 Capitol Oaks Drive, Suite 400, Sacramento, CA 95833, www.bppe.ca.gov, toll-free telephone number (888) 370-7589 or by fax (916) 263-1897.

The Vocational Nursing Program is accredited by the California Board of Vocational Nursing and Psychiatric Technicians (BVNPT). The BVNPT is located at 2535 Capitol Oaks Drive, Suite 205, Sacramento, CA 95833 and can be reached at (916) 263-7800. Their website is www.bvnpt.ca.gov.

The Bachelor of Science in Nursing program at Stanbridge College is a new applicant pursuing initial accreditation by the Commission on Collegiate Nursing Education, One Dupont Circle, NW, Suite 530, Washington, DC 20036, (202) 887-6791. New applicant status is neither a status of accreditation nor a guarantee that accreditation will be granted.

The Stanbridge College Occupational Therapy Assistant program has received programmatic accreditation through the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA) through 2018/2019. AOTA is located at 4720 Montgomery Lane, P.O. Box 31220, Bethesda, MD 20824-1220. ACOTE’s telephone number c/o AOTA is (301) 652-AOTA. Their website is www.aota.org.

Effective August 6, 2012, Stanbridge College has been granted Candidate for Accreditation status by the Commission on Accreditation in Physical Therapy Education (1111 North Fairfax Street, Alexandria, VA, 22314; phone: 703-706-3245; email: accreditation@apta.org). Candidate for Accreditation is a pre-accreditation status of affiliation with the Commission on Accreditation in Physical Therapy Education that indicates that the program may matriculate students in technical/professional courses and that the program is progressing toward accreditation. Candidate for Accreditation is not an accreditation status nor does it assure eventual accreditation.

The Associate of Science in Veterinary Technology degree has been approved by the Accrediting Commission of Career Schools and Colleges, ACCSC. Stanbridge College is seeking accreditation for the Associate of Science in Veterinary Technology degree by the American Veterinary Medical Association (AVMA) Committee on Veterinary Technician Education and Activities (CVTEA) (1931 North Meacham Road, Suite 100 Schaumburg, IL 60173-4360; phone; 800.248.2862; www.avma.org). The program has submitted an Application for Initial Accreditation. Submission of this document does not assure that the program will be granted Accreditation.
The programs in Information Technology at Stanbridge College are members of the Computing Technology Industry Association (CompTIA); www.comptia.org, and the Microsoft IT Academy; http://www.microsoft.com/en-us/itacademy/default.aspx.

Stanbridge College is approved for veterans education benefits under Title 32 and 33 of the GI Bill in addition to WIA training benefits from various Workforce Investment Boards including those in Irvine, Westminster, Santa Ana, Anaheim, South Bay and Riverside.

**Transferability of Credits And Credentials**

The transferability of credits you earn at Stanbridge College is at the complete discretion of an institution to which you may seek to transfer. Acceptance of the degree you earn is also at the complete discretion of the institution to which you may seek to transfer. If the credits or degree that you earn at this institution are not accepted at the institution to which you seek to transfer, you may be required to repeat some or all of your coursework at that institution. For this reason you should make certain that your attendance at this institution will meet your educational goals. This may include contacting an institution to which you may seek to transfer after attending Stanbridge College to determine if your credits or degree will transfer.
